Young Researchers Conference

Energy Efficiency & Biomass

24 – 25 February 2016

- The Young Researchers Conference is held in the context of the World Sustainable Energy Days. With more than 700 participants from over 60 countries each year, the World Sustainable Energy Days are one of Europe's largest annual conferences on sustainable energy.
- Linked to the main topics of the WSED16, this conference focuses on energy efficiency in buildings and on biomass.
- The 2 best contributions are honoured with the awards "Best Young Researcher: Energy Efficiency" and "Best Young Researcher: Biomass". The researcher(s) will receive 1,000 Euro each as prize money.
